

PUBLIC MEETING NOTICE

Connecting El Camino Real de los Tejas National Historic Trail to San Antonio Missions National Historical Park and Community Trail Networks -- A Feasibility Study

The National Park Service is conducting a feasibility study to identify ways to connect sites and routes associated with El Camino Real de los Tejas National Historic Trail (El Camino Real) to San Antonio Missions National Historical Park.

The alternatives identified in this study will ensure to incorporate the preferred routes and opportunities through a community-driven process.

Public input is requested to identify enhancements to public health, recreation, resource protection, and other community social and economic benefits.

To learn more about the project and provide your input, please join us:

February 25th
Saturday

11:00 a.m. - 12:00 p.m.

Floresville City Hall
1120 D. Street
Floresville, TX 78114

Meeting will be held in collaboration with the City of Floresville's Master Planning Meeting which will begin at 10:00 a.m.

Unable to attend this meeting? NPS will host additional project meetings within the study area. Please visit the website for meeting notice updates.

The study area incorporates a five-mile area around the San Antonio River between two specific locations -- Mission San Francisco de las Espada (Mission Espada) in San Antonio, TX and Rancho de las Cabras (Rancho) in Floresville, TX.

Since June 2011, the project team and community advisors have been studying and identifying resources and potential route alternatives within the study area. Areas studied include: planned paddling trails along the San Antonio River; Municipal, County, and San Antonio River Authority managed park lands and canoe launches; preferred bike routes; potential corridors for new trails; areas of historical significance and existing historical markers; and spanish colonial sites significant to the time period of El Camino Real de los Texas National Historic Trail and San Antonio Missions National Historical Park.
